

Engineered to last

The 3M commitment to quality is the foundation for the warranty coverage we provide. 3M warrants that film will be free of defects in materials and manufacture including yellowing, bubbling and cracking. Ask your 3M authorized installer or see your warranty card for more details.

Maintenance and Cleaning Tips:

To ensure your 3M™ Paint Protection Film (PPF) remains in excellent condition, please follow these care guidelines:

- You can hand wash your car as early as 72 hours.
- Refrain from spray washing within first 7 days of installation.
- Do not apply high pressure washes at edges of film
- Avoid using waxes containing dyes, abrasive polishes, or rubbing compounds.
- Refrain from harsh chemicals, whether acidic nor alkaline, when cleaning
- Use only 3M recommended car wax and car shampoo for optimal results
- To prevent staining, promptly wash off any bird droppings, bug/insect debris and tree sap.
- Apply regular waxing to both vehicle and film to maintain a high gloss finish
